Keoka Lake is located in the town of Waterford and is part of the Long Lake Watershed in the southwestern part of Maine. Keoka Lake Association (KLA) is a volunteer organization supported by those who love Keoka Lake, whether they be landowners along its shores, citizens/taxpayers in Waterford who use and treasure the lake, or some for whom Keoka Lake holds a special place in their hearts. Supported by member dues, KLA is committed to maintaining the health and safety of Keoka Lake, especially in the face of the threat of invasives, both flora and fauna and naturally occurring and man-made environmental threats.

A milfoil sticker is required in order to operate a power-boat on any lake in Maine. See Town Office for details.

A Fishing License is required for open water or ice fishing on any lake in Maine.

The 100-foot Buffer Zone of any lake front property is critical to the health of the lake. Remember......

Erosion = Enemy

KLA Treasurer - Membership

P.O. Box 97

Waterford, ME 04088

The annual KLA meeting is held on the second Saturday in July at Wilkins Community House at 8:30AM.
Your Membership Matters

Your interest and support in maintaining a membership in the Keoka Lake Association helps promote the following types of programs being handled by current memberships:

- Milfoil prevention through Courtesy Boat Inspections.
- Regular water quality testing in coordination with the LEA Lake Monitoring Program.
- Water depth regulation, dam maintenance and control.
- Aids to safe boating including navigation markers at the public boat launch and swimming area.
- Close working relationship with the Lakes Environmental Association (LEA) on special funding projects related to water quality and improvement including the education of lakefront property owners and the public, monitoring of lake plant materials including potential invasives and mitigation planning for identified shoreland problems negatively affecting water quality.
- Work with Town of Waterford, DEP, LEA, Lake Stewards of Maine and its Volunteer Lake Monitoring Program for other programs and grants to help maintain the high water quality of the lake and its surroundings.
